

Side-event: MONDAY 13:15-14:45

Room D (Level 1)

GLOBAL INVASIVE ALIEN SPECIES INFORMATION PARTNERSHIP

The Side Event will explore what has been delivered in the last year and discuss future plans. Tools and resources discussed will include the GIASI Partnership Information Gateway, the Global Register of Introduced and Invasive Species, the IAS Pathway Tool, and plans to develop interoperability between Partners' resources to improve the ability of Parties to discover the information they need. The Partner organizations - CABI, Fishbase, GBIF, IUCN-ISSG, Natural History Museum (UK), Muséum National d'Histoire Naturelle (France), Horus Institute (Brazil), Anatrack Ltd (and the Parties of the CBD through the CBD Secretariat) – are working towards being able to react to Parties' changing needs and deliver information to support key aspects of the workflow in combatting Invasive Alien Species.

Topic	Speaker
Welcome and overview of the Partnership	Chris Lyal, Natural History Museum Chair of interim Steering Committee for the GIASI Partnership
Tools produced by Partnership	
The Partnership Information Gateway	Chris Lyal, Natural History Museum
Global Register of Introduced and Invasive Species (GRIIS)	Piero Genovesi / Shyama Pagad, IUCN-ISSG
Invasive Alien Species Pathway Management Tool	Piero Genovesi / Shyama Pagad, IUCN-ISSG
Future developments:	
Tools to link IAS information	Samy Gaiji, Global Biodiversity Information Facility
From web to field: Partnership activities away from the internet.	TBA
Overview from now to COP	Donald Hobern, Global Biodiversity Information Facility
